Full product description

FITRUB mounting clamp

Description:

FITRUB rubber clamps are used for easy and quick mounting of oval-shaped (or similar) objects to fixed surfaces in order to store or protect them. You can use the clamps to mount e.g. fishing rods, shackles, ropes, steel ladders, axes, flashlights, garden tools, wires, tubes, jacks, fire extinguishers etc.

You can use FITRUB clamps to mount everything that should be secured and at the same time easy to remove.

Examples of fields of application: offroad, sailing, special forces, households, industry. The rubber-derived material fully retains its properties both in hot and cold environments.

It is mounted with clamping bands or with screw which should be located at the centre of the clamp.

Product features:

- Easy mounting
- Quick mounting
- Secure mounting
- Durable
- Practical
- Stable
- Aesthetically made
